OBJECTIVE

To leverage my skills in Angular, Node.js, Python, and SQL to develop innovative software solutions and contribute to the success of a dynamic organization.

WORK EXPERIENCE

- **TRIM Solutions, Hosur, Tamil Nadu** *September 2024–Present ERP Software Developer Intern*
 - Designed dynamic user interfaces using Angular and TypeScript with **Entity-Manager Model** architecture
 - *Implemented:*
 - **Entity Classes:** TypeScript interfaces for strong typing of business objects
 - **Manager Services:** Reusable Angular services handling CRUD operations and business logic
 - State management using RxJS Observables for real-time data synchronization
 - Built RESTful APIs with Node.js, ExpressJS, and NestJS for enterprise-grade applications
 - Implemented middleware and authentication systems using NestJS framework
 - Optimized relational databases using MySQL for efficiency
 - Delivered maintainable, scalable code within project timelines
 - Collaborated with team members using Git for version control
- **TNQ Tech Pvt. Ltd, Coimbatore, Tamil Nadu** *September 2023–July 2024 Associate Quality Control (CU)*
 - Conducted quality assurance reviews, ensuring accuracy in references and citations
 - Coordinated document revisions and client feedback
 - Improved workflow processes to enhance efficiency

EDUCATION

Manonmaniam Sundaranar University, Tamil Nadu, India

January 2020–June 2023

Bachelor of Science in Computer Science CGPA: 7.43/10.0

- Gained solid understanding of programming, data structures, algorithms, and software development principles

SKILLS

- **Frontend:** Angular, TypeScript, HTML, CSS
- **Backend:** Node.js, ExpressJS, NestJS, TypeORM
- **Databases:** MySQL, SQL
- **Languages:** JavaScript, Python
- **Tools:** Git, GitHub
- **Soft Skills:** Analytical Thinking, Problem-Solving, Communication, Collaboration

PROJECTS

- **HR Management System** 
 - *Team:* Developed collaboratively in a 4-member team using Agile methodology
 - *Backend Features:*
 - Developed leave tracking module with approval workflows
 - Created employee performance analytics dashboard
 - Integrated payroll calculation engine with tax compliance rules
 - Built using Node.js, ExpressJS, and MySQL

- **Angular Portfolio Website**

- Designed and developed a personal portfolio website using Angular, HTML, SCSS, and TypeScript
- Showcases projects, skills, experience, and links to GitHub and LinkedIn for professional branding
- Integrated responsive design and component-based architecture for maintainability and performance

- **Chronic Kidney Disease Prediction**

- Developed and trained machine learning models for CKD prediction using Python and Scikit-Learn
- Achieved high accuracy through feature selection and model evaluation using Decision Tree and Random Forest algorithms
